[Upload Actuals](#)

**4. This is the Actuals XML Upload Manager.**

Upload XML:    
  
Uploaded file: *None*

[Download Schema \(.xsd\)](#)

**5. Notice that there is a link to the schema for this document type.**

[Download Schema \(.xsd\)](#)

**6. To select your Actuals XML Document, click the browse Button and select your xml file.**

Upload XML:    
  
Uploaded file: *None*

**7. Once you have selected your document, click the upload button.**

Upload XML: C:\Documents and Settings   
  
Uploaded file: *None*

8. The following breaks down the XML document and data validation sections.

## Schema Validation

**Schema Validation shows you what parts of your document do not adhere to the schema.**

Upload XML:

Uploaded file: actuals.xml

File on Server: Provider\_LOCAL\_20080903114554407.xml

**The "Uploaded File:" shows the filename as it resides on the server. Note that it is not named the same as what you uploaded, but the data inside is the same.**

### Schema Validation: 1 errors

2, 11	The 'ContractNum' attribute is invalid - The value '580' is invalid according to its datatype 'ContractNumber' - The Pattern constraint failed.
	ContractNum="580"

## XML Data Validation

**XML Validation area shows you what parts of your data do not validate against the business rules in DRA. This validation will occur after the document has passed schema validation.**

### XML Validation: 1 errors

Site #	Site	Summary
11905	Andrew's Site 12345 Test Way Columbus, OH 43228	<a href="#">Actuals (2 of 2 valid):</a> 
2, 2	Invalid contract number: contract number must be numeric. Contract number is invalid: no contract number exists with the specified number (#580).	
	<Provider ContractNum="580" />	

## XML Highlights

**The XML/Highlights section renders the xml that was submitted in an html table and highlights lines that correspond to validation issues. These issues are detailed in the Schema and XML Validation sections.**

1	<?xml version="1.0" encoding="utf-8"?>
2	<Provider ContractNum="580">
3	<Sites>
4	<Site SiteId="11905" Name="Andrew"'s Site" Addr1="12345 Test Way" City="Columbus" State="OH" Zip="43228" CountyId="77">
5	<ProviderActuals>
6	<ProviderActual effDate="2008-05-01" endDate="2008-05-07" totalHours="5.000000000">
7	<clients>

## Saving the Data

Once your document and data have been able to validate you can submit your data to the database. If there is an error in submitting your data, you will see an error box show up detailing how the data violates one of the business rules.

If no error is returned, then the data has been saved to the DRA database and is accessible through the web application.

[Download Schema \(.xsd\)](#)

Upload XML:

Uploaded file: Site\_LOCAL\_20080508121247723.xml

### Errors:

- Unable to save site on line 3, 4: Invalid contract number: contract number must be numeric. Contract number is invalid: no contract number exists with the specified number (#67001).
