

To bill for adaptive/assistive equipment

Online submission of Environmental Modification and Adaptive/Assistive Equipment claims

Effective December 1, 2010, DODD will no longer accept claims for environmental modification and adaptive/assistive equipment claims via fax. Instead, providers shall submit environmental modification and adaptive/assistive equipment claims through the Medicaid Billing System (MBS). Providers billing for environmental modifications are still responsible for obtaining the Verification for Environmental Modification form, signed by the county board designee, before submitting the claim. Providers shall maintain a copy of the form and make it available to DODD upon request.

Please note that all Adaptive/Assistive Equipment and Environmental Modifications must be identified on an approved Individual Service Plan [ISP] and authorized on the Payment Authorization for Waiver Services [PAWS].
